

TRAVEL MONEY POLICIES & EXPLANATION

Before using a **Travel Money Certificate** towards tournament entry fees, the **Travel Money Certificate** must be authenticated / verified / validated at the time a manager registers their team to play in a tournament. **Travel Money Certificates CANNOT** be used on tournament day unless the **Travel Money certificate** has been verified, authenticated and validated.

All Travel Money is based on a reimbursement system where the sponsor pays us back when we award Travel Money provided the team receiving the Travel Money plays on or before the expiration date.

Once the team plays, we bill or invoice the sponsor with proof in the forms of a roster and a schedule listing the team in a tournament on or before the expiration date. If a team does not play, we cannot bill or invoice the sponsor for reimbursement.

All Travel Money must be used by the expiration date. After the expiration date, the Travel Money certificates are invalid. Travel Money cannot be exchanged for sportswear / sporting goods.

Expiration dates of Travel Money certificates cannot be extended. The one exception is for "bad weather" causing a postponement occurring on the tournament day that your team has entered to play. Travel Money cannot be extended because of "Bad Weather" unless your team is officially entered into a tournament that is postponed because of "Bad Weather".

Travel Money may be used under the following conditions. (1) Must be the same team name as used when the team was awarded the Travel Money. (2) Must be the same division (Men / Women / Co-ed) as when the team was awarded the Travel Money. (3) Must be the same manager as when the team was awarded the Travel Money. (4) AT LEAST 2/3 of the roster or eight (8) players must be present from the team when the Travel Money was won.

There are three (3) kinds of Travel Money:

(1) Travel Money ~ "NEXT". This Travel Money is GOOD for thirty (30) days or Four (4) weekends to any tourney from the date the Travel Money was awarded. This is the most common. The thirty (30) days expiration guarantees that there is a high degree of probability that most of the players who played when they won the Travel Money are still on the team and can benefit from the Travel Money when the team plays again.

(2) Travel Money to a specific tournament such as State, Region, World, Nationals, Rings, etc. This Travel Money is only good to be used for the specific tournament designated. Once the Tournament has past, then the Travel Money is NO GOOD and cannot be used on another date.

For example, you have tickets to the "USC & NOTRE DAME FOOTBALL GAME". Once the game is over and you did not attend the game, the ticket is no longer good and cannot be used for another game,

(3) (0-4) = NO WINS = \$100.00. This Travel Money is the same as #1 "NEXT". This is good for 30 days or four (4) weekends from the tournament the Travel Money was awarded..
